

THE ESSENTIAL GUIDE.

OVERDRIVE

TRACK DAYS!

Fellow track junkies,

Greetings! Thank you for choosing indiMotard!

If you're reading this, it's either because you've shown interest in, or have already confirmed your participation in the 'Throttle Wide Open' Track Riding School.

indiMotard is a motorcycling company based out of Bangalore, India.

We incepted the idea of track riding schools in India back in 2002 specifically for motorcycles.

What started off as a one off event has become a regular affair and we have successfully run over 25 track days in the last 12 years – all of them aimed at shaping people like you to become better, confident and safer riders on and off the track.

This school will provide instructors who have raced competitively abroad with over 20 years of racing experience and can bring the structure and thought into your racing.

THE TRACK RIDING EXPERIENCE.

The benefits of being on a track are many and most importantly track time make you a better more confident rider on or off the track.

Where else can you go around a corner throttle wide open, knowing that you are in a

safe environment, knowing there is only one way traffic, with track side medical support and marshals/corner workers?

An opportunity to hang out with a bunch of nuts like yourself!

SESSIONS

```
graph TD; A[SESSIONS] --- B[LEVEL 1]; A --- C[OPEN SESSIONS];
```

LEVEL 1

Prerequisite: **Motorcycle License**

This is the course that teaches you the basics of the track, the first step being unlearning what you've been applying on the road all along. Then you start relearning and consciously apply what you're being taught in class, on the racetrack. You would be assigned to an instructor, who'd assist you with his inputs, which we believe would go a long way in shaping your riding skills.

OPEN SESSIONS

Prerequisite: **T.W.O Level 1**

Open sessions are typically the ones you do to fine tune your riding skills, where you hit the track without an instructor, solely equipped with the knowledge of what you've learnt earlier and from your rides, and discovering a new line to take with each passing lap, bettering your lap times.

THE INDIMOTARD TEAM.

ANAND DHARMARAJ

Anand has been riding motorcycles in all forms, shapes and sizes covering all forms of riding from racing, touring and rallying for the past 35+ years. Anand raced motorcycles in the US since 1993 and is the key architect of TWO is also the Chief Instructor at the event.

SHUBHBRATA MARMAR

The executive editor at Overdrive Magazine, you'd see him on two wheels more than any other mode of commute, and he lives the enviable life of getting to ride each and every motorcycle that's being launched in this country even before it's on the dealer's shelves. Catch him in his element at Throttle Wide Open.

THE INDIMOTARD TEAM.

PRASHANTH KUMAR

“The Nomad” as he is usually referred to, has more history than the number of years he has actually lived. Celebrating life with a diet of an assorted bunch of motorcycles ranging from British classics, Czech race machines and jap tech marvels. His agenda constitutes circuit racing, dirt racing and touring, apart from the rallying Endeavour.

DANIEL ANANDARAJ

Dodo, as he's fondly called, the founding member of Madras Bulls Motorcycling Club, started off as a student at indiMotard's TWO, finished all levels and came on board as a Track Instructor. His style is inimitable, and adds to the flair of being on the motorcycle belting it through the corners, whether on roads or at the track.
